Full Stack Developer with 3+ years of professional experience at IEMALabs delivering production-grade MERN and React Native applications across healthcare, IoT, and education domains. Skilled in Docker, AWS, CI/CD automation, and RESTful API design. Equally passionate about cybersecurity — hands-on with VAPT, penetration testing, network analysis, and vulnerability management. Seeking roles at the intersection of software engineering and security.

WORK EXPERIENCE

Software Developer (Fixed-Term)

Sep 2025 – Present

IEMALabs — IEMA Research & Development Pvt. Ltd., Kolkata

- Built and shipped 24+ production MERN + React Native applications across healthcare, IoT & education verticals serving 2,900+ active users
- Engineered IEMA EMR — a full-stack Electronic Medical Records platform with RBAC, appointment scheduling, prescription management, and audit logging
- Containerised microservices with Docker and configured AWS EC2 CI/CD pipelines, cutting deployment time by ~40%
- Led code reviews, enforced best practices, and maintained high test coverage across critical backend modules

Trainee Developer

Jan 2023 – Sep 2025

IEMALabs — IEMA Research & Development Pvt. Ltd., Kolkata

- Contributed full-feature development on React.js / Node.js / Express products; integrated Razorpay, Twilio SMS & Google Maps APIs
- Optimised MongoDB aggregation pipelines and introduced Redis caching, reducing average API response time by 35%
- Conducted internal VA/PT exercises and patched critical SQL-injection, XSS & IDOR vulnerabilities before production release
